

IND9U Unattended Terminal User-Friendly Driver Kiosk

METTLER TOLEDO

Benefits of IND9U

Automated Weighing Made Easy

The highly configurable IND9U weighing terminal family allows you to weigh vehicles and capture information 24 hours a day, 7 days a week, without the need for a scale operator.

Find Your Ideal Fit

Available in a large touchscreen format (with DataBridge™) or for standalone terminal-based operation.

Improved Data Capture

Retrieves data using RFID, barcode, or QR code readers with a weather-resistant display for reliable data input.

Improved Facility Control

Discrete I/O interface controls loops, gates, lights, and photo eyes.

Faster and Safer Weighing Throughput

Allows drivers to complete transactions from the cab of their truck.

24/7 Durability

Weather-resistant stainless-steel enclosures with climate control.

Data Accessibility

Optional DataBridge™ software provides visibility into operations with powerful reporting tools and 3rd party integration capabilities.

Automated Transactions

Save time and boost safety with automatic vehicle ID and preset data features. With DataBridge, enable faster, touchless transactions.

User-Friendly Interface

Intuitive functionality eliminates the need for a scalehouse operator.

| Keyboard | On-screen Touch, 30 or 65 Key |
| Printer | Direct Thermal |
| Intercom | 2-way Direct Wire or VOIP |
| Enclosure | 304 Stainless |
| Models | IND9UT, IND9US, IND9UDB |

Weighbridge Service Solutions

Tailored to Fit Your Needs

METTLER TOLEDO Service delivers resources to enhance your efficiency, performance, and productivity. Explore our service offerings below or reach out to your local METTLER TOLEDO representative to find the best fit for you.

Warranty Coverage

All warranties are not created equal. Coverage can vary greatly from one supplier to the next. It is critical to ask about parts, labor, travel, calibration, environmental protection, stipulations, and more when exploring various warranty offerings.

Performance Upgrades

Load cells, indicators, peripherals, and software upgrades enhance the accuracy, reliability, and functionality of your truck scale beyond its current capabilities. With POWERCELL® upgrade and conversion kits, you can protect profitability and extend the life of your asset, all at a fraction of the cost of a new scale.

Professional Installation

Establish full confidence in your equipment from day one. Our expert technicians execute installation and testing, full system setup and calibration, setup of standard operating parameters, and user and maintenance familiarization. Simplify compliance with site, regulatory, and quality requirements.

Asset Maintenance

Regular maintenance enables reliable performance, compliance, and budget control. With insight into asset performance, you can minimize unplanned downtime and maintenance costs. Extend asset life with calibration, powerwashing, replacement of worn parts, and lubricating of the load cells and receivers.

Care Packages

Care Packages keep your operation running like clockwork. Crafted to cater to your specific needs, our packages provide preventive maintenance, replacement parts, and flexible support options.
